

Dear FCC:

I can't begin to tell you how much my family has benefited from listening to XM Satellite Radio, it's music channels, it's talk programs, its traffic and weather reports. It provides us with a variety and a quality of programing that is not available anywhere else on AM or FM. Since I pay for these services, it should not be up to the National Association of Broadcasters to dictate to my family, what we are permitted to hear and enjoy.

With all due respect, I strongly urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that my family wants, that other's want and that I want.
